

We are collecting information about headaches in this department. This is part of a large UK research study. We are trying to understand how to best investigate acute severe headache.

***RESEARCH STUDY:
Subarachnoid Haemorrhage
in Emergency Departments***

If you are reading this and have a headache, staff will provide you with more information. If you do not want your information used in this study, then it is easy to opt-out. Either:

Speak to your nurse or doctor
